Aaliya Bashir, MPA, PMP, CSM

Senior Technical Program Manager | AI Infrastructure, Platform Operations & Enterprise Automation

Atlanta, GA | bashiraaliya@gmail.com | +1-678-594-1031 | https://www.linkedin.com/in/aaliya-bashir/
Portfolio: https://bus-ops-deck.vercel.app Platform case study: https://aaliya-ai-ops-ecosystem.vercel.app

PROFESSIONAL SUMMARY

Technical program and operations leader with 16+ years of experience translating complex systems, organizational priorities, and stakeholder needs into executable programs, governed operating models, and measurable outcomes. Combines SaaS delivery, executive communication, analytics, enterprise change leadership, and hands-on AI and platform engineering. Built and installed an AI-enabled production platform spanning macOS, Debian Linux, local AI, APIs, MCP integrations, cloud services, CI/CD, observability, security controls, and recoverable operations. Known for creating structure in ambiguity, aligning technical and executive stakeholders, and turning emerging technology into reliable operating capability.

SELECTED TECHNICAL LEADERSHIP & IMPACT

- Directed $245K-$2.2M SaaS implementations for Department of Energy, defense, and regulated-industry clients.
- Led a $4.5M academic medicine initiative across 10+ institutions, establishing governance, decision frameworks, communications, and execution milestones.
- Built enterprise and independent automation systems incorporating approvals, permissions, audit trails, APIs, AI agents, and secure operational workflows.
- Delivered measurable outcomes including a 25% increase in client satisfaction, a 34% improvement in customer satisfaction through operations leadership, and more than $14M in savings and cost avoidance.

CORE COMPETENCIES

Technical program management | AI infrastructure and platform operations | Enterprise automation | Systems integration | Reliability and recovery | Observability | APIs and MCP integrations | CI/CD | Operating-model design | Governance, risk, and recovery management | Executive reporting | Cross-functional leadership

PROFESSIONAL EXPERIENCE

Wellstar Health System, Atlanta, GA

Technical Program Manager - Total Rewards Jan 2025 - Jul 2026

- Led enterprise Total Rewards and Labor Optimization work by translating workforce, benefits, utilization, and labor data into executive dashboards, decision materials, and action-oriented recommendations.
- Coordinated technical, HR, finance, analytics, and leadership stakeholders across workforce and labor-optimization initiatives.
- Built repeatable reporting workflows using Power BI, Tableau, SQL, Excel, and PowerQuery that improved visibility and accelerated leadership decision-making.
- Served as the bridge between technical teams and executive audiences, converting complex analysis into decisions, priorities, risks, and next steps.

Harvard Medical School, Remote

Program Manager Jan 2023 - Jan 2025

Concurrent SME consulting engagement.

- Led a $4.5M program across 10+ institutions and multiple stakeholder groups, including hospital partners, educators, and internal leadership.
- Established governance, operating rhythms, decision rights, communication plans, escalation paths, and execution milestones.
- Balanced institutional strategy, fiscal planning, long-range value creation, stakeholder priorities, and operational delivery.

Ideagen DevonWay, Remote

Technical Project Manager - SaaS Client Implementations Nov 2022 - Jan 2024

Concurrent SME consulting engagement.

- Directed SaaS implementations for Department of Energy, defense, and regulated-industry clients with project budgets ranging from $245K to $2.2M.
- Owned client-facing communication across scope, schedule, risk, dependencies, issue resolution, and executive status reporting.
- Coordinated sales, product, engineering, implementation, and customer teams across complex technical environments.
- Increased customer satisfaction by 25% through stronger communication, delivery alignment, and issue-resolution practices.

Warrior Body Spa, Tucker, GA

Director of Operations 2014 - 2022

- Led and developed a 17-member team across staffing, systems, customer experience, service delivery, and performance management.
- Improved customer satisfaction by 34% within six months through workflow redesign, team enablement, and operating-process improvements.
- Redesigned CRM, scheduling, marketing, and service-delivery workflows to improve consistency, visibility, and scalability.

KSW Real Estate, Atlanta, GA

Project Manager, Real Estate Operations 2010 - 2014

- Developed a five-year operating and investment roadmap contributing to more than $14M in savings and cost avoidance.
- Supported portfolio expansion from two to seven properties, enabling 350% growth through disciplined planning and execution management.

INDEPENDENT PLATFORM ENGINEERING & AI OPERATIONS | 2023-PRESENT

- Designed, built, and installed a recoverable AI-enabled production platform integrating macOS, Debian Linux, local AI, APIs, MCP integrations, cloud services, Tailscale, Cloudflare, Docker/Compose, PostgreSQL, Redis, self-hosted CI runners, and launchd-managed automation.
- Architected distinct compute, network, data, security, automation, AI, observability, and recovery planes across a multi-host private infrastructure environment, with preflight checks, rollback procedures, backup/restore requirements, runtime verification, storage monitoring, soak testing, and evidence-based health classification.
- Built a guarded AI operations control plane that evaluates action risk, executes only registered operations, records audit evidence, and fails closed when identity or approval controls are unavailable.
- Built and installed a launchd-managed OpenClaw watchdog that checks local and public health endpoints every five minutes, waits for 30 continuous minutes of failure, and applies a staged gateway and tunnel recovery sequence.
- Implemented persistent state, file locking, cooldown protection, and sanitized logging.
- Integrated Debian/Linux services including Pi-hole, DNS, DHCP, SSH, Samba/SMB, and NAS workflows with private remote access and cloud-connected operations.
- Built supporting AI and automation projects across agent orchestration, MCP, LiteLLM routing, healthcare operations, enterprise workflows, dashboards, APIs, and developer tooling.

SELECTED AI SYSTEMS & PRODUCT ENGINEERING

- Mothership - Enterprise automation platform involving agents, tasks, email triage, finance workflows, revenue operations, dashboards, and operational tooling.
- BOOMERANG - Automation and workflow platform demonstrating permissions, task execution, approvals, integrations, and enterprise operations.

- FHIR Facility Copilot - Healthcare AI platform focused on facility operations, clinical workflows, and applied FHIR concepts.
- FlowTwin Live - Real-time healthcare operations system combining voice AI, APIs, dashboards, simulated emergency-department workflows, and live metrics.
- Dispatch Bot - Agentic workflow automation with task routing, permissions, and operational execution.
- CLAUDELITELLM - LLM gateway and model-routing work across hosted and local AI systems.
- ZeroWait - Healthcare access, scheduling, and patient-flow product work.

TECHNICAL TOOLS

- AI and agent systems: OpenClaw, MCP, tool calling, multi-agent workflows, LiteLLM, Claude, Gemini, Ollama, local-first AI, agent memory, orchestration
- Software and product engineering: Python, TypeScript, JavaScript, React, Vite, Node.js, Express, Bash, zsh, REST APIs, WebSockets, dashboards
- Infrastructure and operations: macOS, Debian Linux, Linux, launchd, Docker, Docker Compose, Colima, Lima, Tailscale, Cloudflare Tunnel, Cloudflare Access, CI/CD, observability, watchdogs, backup and recovery
- Data and analytics: PostgreSQL, Redis, SQLite, SQL, Power BI, Tableau, Excel, PowerQuery
- Delivery and governance: Technical program management, Agile, Waterfall, Jira, Confluence, Asana, risk management, executive reporting, change leadership, vendor management

EDUCATION & CERTIFICATIONS

- Harvard University - Graduate Certificate, Corporate Sustainability and Innovation
- Augusta University - Master of Public Administration
- Paine College - Bachelor of Arts, Philosophy
- Private Pilot License - ATP Flight School
- Project Management Professional (PMP) | Certified ScrumMaster (CSM)
